Green Building Innovation Seminars - Training the Future

In order to inspire the next generation of architects, engineers and construction managers, the German American Chamber of Commerce of the Midwest has organized a series of seminars at four Midwestern universities. A select group of leading architects and engineers from Germany and the United States will present their latest research and projects incorporating renewable energies and other innovative, energy efficient green building technologies.

University of Illinois at Urbana-Champaign

Date: Tuesday, September 16, 2008
Time: 5:30 p,m – 6:00 pm: reception
6:00 pm – 8:30 pm: lecture
